

# Il Buco Nero The real Black Hole

Sito dei lavoratori precari dell'Istituto Nazionale di Fisica Nucleare (INFN)

## **INFN researchers are at risk!!!**

Recent actions by the Italian government will have a disastrous effect on the research sector.

In particular, the INFN can expect:

- 10% reduction in permanent staff
- No new hires for at least 3 to 4 years
- Temporary contract renewals limited by budget cuts
- 300 temporary staff members to be laid off

**BE INFORMED**

Ask your Italian collaborators about their contract status and future prospects
